Invitation for Expert Talk on Public Administration and AI Future Directions dated 07-09-2023

IEEE Delhi Section with Computer Society Chapter, Consultants Network Affinity Group, Life Member Affinity Group, Inter Society Relations, Industry Relations & SIGT Standing Committees of IEEE Delhi with the associations CSI, Safa Society, ISTE Delhi Section, IETE Delhi Centre, invites you for a Webinar on 07-September-2023, the Thursday, at 10:00 a.m

The way governments operate and provide services to their residents has changed as a result of the growing interdependence between public administration and artificial intelligence (AI). The future directions and impacts of this connection between public administration and AI must be carefully considered as we stand on the threshold of a new age in government. The ethical, legal, and societal ramifications of AI in public administration are raised by this rapidly changing environment. To make sure that AI advances rather than hampers the primary goals of public administration, issues including data privacy, bias in AI algorithms, and the responsibility of automated systems must be carefully considered. In order to build a more effective, responsive, and fair government for all citizens, it is critical that we navigate this path with care and foresight. This expert talk will focus exclusively on the future of public administration and AI promises both difficulties and opportunities
