Invitation for Webinar on AI in Interior Design dated 09-12-2023

IEEE Delhi Section with Computer Society Chapter, Consultants Network Affinity Group, Life Member Affinity Group, Inter Society Relations, Industry Relations & SIGHT Standing Committees of IEEE Delhi with the associations CSI, Safa Society, ISTE Delhi Section, IETE Delhi Centre, invites you for a Webinar on 09-December-2023, the Saturday, at 06:00 p.m.

There is no doubt that artificial intelligence is an amazing tool. AI industry has evolved at an alarming rate, and it seems like there's nothing we can't do with AI. With more and more advanced AI tools emerging every day, Artificial Intelligence has the potential to revolutionise and impact the world in many ways. The industry of Interior Design has always been at the forefront of innovation and technology, adapting to changing consumer preferences, emerging trends, and advances in related processes. With the rise of artificial intelligence (AI), the industry is once again undergoing a transformation that is changing how it is designed, and presented. AI algorithms can analyse large amounts of data from social media, design blogs, and consumer choices to identify emerging trends and predict what styles and colours will be popular amongst the customers. AI can also generate design concepts based on specific inputs, such as colour and arrangements, saving designers' significant time and effort while allowing. The webinar aims to discuss various aspects of applications of AI in Interior Design.
