Bharati Vidyapeeth New Delhi	**IEEE Delhi Section** with **Computational Intelligence Society, Computer Society, Communication Society, Consultants Network Affinity Group, Life Members Affinity Group, Inter Society Relations, Industry Relations, TEMS, SMC & SIGHT Standing Committees of IEEE Delhi Section** with following associations	IEEE Advancing Technology for Humanity IEEE Delhi Section

CSI Delhi Chapter	Computer Society Chapter IEEE Delhi Section	IITP New Delhi	IETE New Delhi	IEEE Computational Intelligence Society IEEE Delhi Section

Invite you for a Free **Webinar** on **03-12-2022, the Saturday,** at **06:00 p.m.** as per the details given hereunder:-

Speaker	**Mr. R. K. Singh** ICT and Broadcast Media Consultant Former Engineer-in-Chief, Doordarshan
Date and Time Schedule	**03-December-2022, the Saturday,** from **06:00 p.m.** to **07:30 p.m.**
Title of the Talk	**AI in Cyber Security**
Venue and Contact Details	**CISCO WebEx Meeting** Platform CISCO WebEx Event ID and Password shall be sent on E-Mail to the registered participants, at-least one day in advance. Please check your Spam and other folders also for our emails and mark it as SAFE / NOT SPAM.
Programme Schedule	**05:30 p.m.** to **06:00 p.m.** – **Login, online Networking and Tea (at Home)** **06:00 p.m.** to **07:00 p.m.** – **Technical Talk** **07:00 p.m.** to **07:30 p.m.** – **Q & A Session** followed by Certification
Registration Link and Fee	**Registration Link: http://bvicam.ac.in/webinars/** **No registration fee. It is absolutely free for the members** of **IEEE, CSI, IETE, ISTE, ISCA, IITP** and **Bharati Vidyapeeth,** with pre-registration
Abstract of the Talk	Every day, the cyber-attack surface keeps on getting bigger and bigger. Threats have not only become complex but are also more difficult to get detected. On a daily basis, it is common for cyber security teams to grapple with a huge number of alerts that are difficult to analyse and take action. The sheer number of connected devices coupled with scarcity in the number of skilled security professionals makes it a daunting task for any enterprise to improve its security posture. With the advancements in AI, it is now possible for security teams to significantly reduce risks. For example, AI is a critical arsenal in the fight against cyber threats, as AI-based systems are today able to handle and quickly analyse millions of events and map this to identify different types of threats. This includes analysing new malware to identify zero-day attacks to prevent users from clicking suspicious emails. AI systems can learn from patterns of past security events and prevent the next attack from taking place. The webinar aims to discuss various aspects of the AI in Cyber Security.

All are welcome:
Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
