Bharati Vidyapeeth New Delhi	**IEEE Delhi Section** with **Computational Intelligence Society, Computer Society, Communication Society, Consultants Network Affinity Group, Life Members Affinity Group, Inter Society Relations, Industry Relations, TEMS, SMC, SIGHT Standing Committees of IEEE Delhi Section and Region-10** with following associations IEEE Delhi Section

CSI Delhi Chapter	Computer Society Chapter IEEE Delhi Section	IITP New Delhi	IETE New Delhi	IEEE Computational Intelligence Society IEEE Delhi Section

Invite you for a Free **Webinar** on **09-12-2023**, **the Saturday,** at **06:00 p.m.**
as per the details given hereunder:-

Speaker	**Mr. R. K. Singh** ICT and Broadcast Media Consultant Former Engineer-in-Chief, Doordarshan
Date and Time Schedule	**09-December-2023, the Saturday,** from **06:00 p.m.** to **07:30 p.m.**
Title of the Talk	**AI in Interior Design**
Venue and Contact Details	**CISCO WebEx Meeting** Platform CISCO WebEx Event ID and Password shall be sent on E-Mail to the registered participants, at-least one day in advance. Please check your Spam and other folders also for our emails and mark it as SAFE / NOT SPAM.
Programme Schedule	**05:30 p.m.** to **06:00 p.m.** – **Login, online Networking and Tea (at Home)** **06:00 p.m.** to **07:00 p.m.** – **Technical Talk** **07:00 p.m.** to **07:30 p.m.** – **Q & A Session followed by Certification**
Registration Link and Fee	**Registration Link: http://bvicam.ac.in/webinars/** **No registration fee. It is absolutely free for the members** of **IEEE, CSI, IETE, ISTE, ISCA, IITP** and **Bharati Vidyapeeth,** with pre-registration
Abstract of the Talk	There is no doubt that artificial intelligence is an amazing tool. AI industry has evolved at an alarming rate, and it seems like there's nothing we can't do with AI. With more and more advanced AI tools emerging every day, Artificial Intelligence has the potential to revolutionise and impact the world in many ways. The industry of Interior Design has always been at the forefront of innovation and technology, adapting to changing consumer preferences, emerging trends, and advances in related processes. With the rise of artificial intelligence (AI), the industry is once again undergoing a transformation that is changing how it is designed, and presented. AI algorithms can analyse large amounts of data from social media, design blogs, and consumer choices to identify emerging trends and predict what styles and colours will be popular amongst the customers. AI can also generate design concepts based on specific inputs, such as colour and arrangements, saving designers' significant time and effort while allowing. The webinar aims to discuss various aspects of applications of AI in Interior Design.

All are welcome:
Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**

(Prof. M. N. Hoda) Director, BVICAM, New Delhi	**(Prof. Subrata Mukhopadhyay)** Chairperson, CNA Group, IEEE DS
