Link and Fee**

**Registration Link: <http://bvicam.ac.in/webinars/>**

**No registration fee. It is absolutely free for the members of IEEE, CSI, IETE, ISTE, ISCA, IITP and Bharati Vidyapeeth, with pre-registration**

**Abstract of the  
Talk**

Initially Blockchain was positioned as cure for all problems. As years went by, Blockchain has become real in Enterprise / Private – Permissioned Blockchain space. It emerged as a trusted open source technology that can be used as trusted middleware or single source of truth which became paramount in the world where trust gap is increasing on account of fake documents fake identities, fake products, fake news etc. From supply chain-focused industries like manufacturing, retail, and healthcare to tightly regulated ones like banking and aerospace, the adoption of blockchain is poised to accelerate in 2021 as countries and organizations attempt to operate 'business-as-usual'. They will continue to use Blockchain to provide new customer experience, solve tough business problems that remain unsolved through traditional technologies. The Webinar is aimed to discuss its all round perspective and the key trends that will drive us in the Post-Covid world.

**All are welcome:**

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
