**Abstract of the Talk**

User experience has always been a key peg when it comes to building successful solutions that are loved and used heavily by their end users. As technology evolves, new tools come up, new studies are done, the approach to build successful user experiences that are more relevant to users today has also evolved tremendously. The session will try to look at a bit of history of evolution of UX, where it is now and what are some of the key considerations for where it is headed to in coming years.

**All are welcome:**

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
