Abstract of the Talk

Chaos Engineering helps teams proactively find faults before they become outages. It helps companies immensely to build software that just works. In this session, we learn about Chaos Engineering, how it is practiced in an enterprise, who practices it, where it can be applied, what are the benefits and more. This Session is aimed to discuss all these issues and concerns.

All are welcome:

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
