**Abstract of the
Talk**

Cloud Computing is rapidly penetrating in almost every walks of life and becoming pervasive and ubiquitous, every coming day. The webinar aims to discuss various important aspects like technical and business perspective, key enablers, various service and deployment models, adoption challenges, typical cloud journey, Containerization and Dockerization, Technical Stack Layer and finally the new world beyond cloud and virtualization. The webinar, with the help of use cases, will explore all these dimensions.

All are welcome:

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
