Invite you for a Free **Webinar** on **10-07-2021, the Saturday**, at **06:00 p.m.**
as per the details given hereunder:-

Speaker

Mr. Nishit Narang

Associate Professor, WILPD-CSIS, BITS Pilani

**Date and Time
Schedule**

10-July-2021, the Saturday, from 06:00 p.m. to 07:30 p.m.

Title of the Talk

**Cyber Forensics: Investigation Techniques and Tools for
Contemporary Cyber Crimes?**

**Venue and
Contact Details**

CISCO WebEx Meeting Platform

CISCO WebEx Event ID and Password shall be sent on E-Mail to the registered participants, at-least one day in advance. Please check your Spam and other folders also for our emails and mark it as SAFE / NOT SPAM.

**Programme
Schedule**

05:30 p.m. to 06:00 p.m. – Login, online Networking and Tea (at Home)

06:00 p.m. to 07:00 p.m. – Technical Talk

07:00 p.m. to 07:30 p.m. – Q & A Session followed by Certification

**Registration
Link and Fee**

Registration Link: <http://bvicam.ac.in/webinars/>

No registration fee. It is absolutely free for the members of IEEE, CSI, IETE, ISTE, ISCA, IITP and Bharati Vidyapeeth, with pre-registration

**Abstract of the
Talk**

Cybersecurity frameworks, including the most popular NIST Cybersecurity framework, describe 5 key aspects for Computer and Information System Security, viz. Identify, Protect, Detect, Respond and Recover. Most organizations and enterprises that take cybersecurity with some amount of seriousness implement measures to Identify cybersecurity risks, Protect their systems using cybersecurity tools and practices and enable Detection mechanisms to detect attacks. Other organizations that have stronger cybersecurity practices go a step further to also actively Respond and Recover from a state of cyber attack. However, only few organizations have trained resources to perform post-attack analysis and investigation. Post attack analysis and investigation is important to not only prevent a recurrence of the cyber attack but to also bring the perpetrators to justice. The webinar is aimed to discuss the field of cyber forensics, and its sub-domains, viz. Computer Forensics, Network Forensics, Mobile Device Forensics, Email Forensics and the more contemporary Cloud and IoT Forensics.

All are welcome:

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**

(Prof. M. N. Hoda)

Director, BVICAM, New Delhi
