Bharati Vidyapeeth New Delhi	**IEEE Delhi Section** with **Computational Intelligence Society, Computer Society, Communication Society, Consultants Network Affinity Group, Life Members Affinity Group, Inter Society Relations, Industry Relations, TEMS, SMC & SIGHT Standing Committees of IEEE Delhi Section** with following associations	IEEE Advancing Technology for Humanity — IEEE Delhi Section

CSI Delhi Chapter	Computer Society Chapter IEEE Delhi Section	IITP New Delhi	IETE New Delhi	IEEE Computational Intelligence Society — IEEE Delhi Section

Invite you for a Free **Webinar** on **10-12-2022**, **the Saturday,** at **06:00 p.m.**
as per the details given hereunder:-

Speaker	**Mr. Sandeep Khanna** Principal Product Architect Automotive Services Business Unit, Harman International
Date and Time Schedule	**10-December-2022, the Saturday,** from **06:00 p.m.** to **07:30 p.m.**
Title of the Talk	**Digital Key: A Big Revolution for Secured Transportation**
Venue and Contact Details	**CISCO WebEx Meeting** Platform CISCO WebEx Event ID and Password shall be sent on E-Mail to the registered participants, at-least one day in advance. Please check your Spam and other folders also for our emails and mark it as SAFE / NOT SPAM.
Programme Schedule	**05:30 p.m.** to **06:00 p.m.** – **Login, online Networking and Tea (at Home)** **06:00 p.m.** to **07:00 p.m.** – **Technical Talk** **07:00 p.m.** to **07:30 p.m.** – **Q & A Session followed by Certification**
Registration Link and Fee	**Registration Link: http://bvicam.ac.in/webinars/** **No registration fee. It is absolutely free for the members** of **IEEE, CSI, IETE, ISTE, ISCA, IITP** and **Bharati Vidyapeeth,** with pre-registration
Abstract of the Talk	In this smart IOT enabled era, where connected vehicles are fast becoming the order of the day, plain old car keys are set for a major revamp. Imagine you walk towards your car with just your Smart phone in pocket, when you are 1 meter away from the car, it unlocks itself and then you place the Smartphone on NFC-capable Smartphone wireless charging pad and start the vehicle. Once you reach your destination, you walk 5 meters away from car and it locks itself, OR, you want to give your car to your teenage son to drive but want to restrict him to not drive over 60 KMPH, OR, while you are on vacation, you can share a key with your friend who can just unlock it to fetch some belongings and you can terminate your shared keys once he is done. All these use cases and many more are possible with Phone as a Key or Digital Key feature. The webinar aims to discuss various aspects of this fascinating transformations in Digital World through Digital Key.

All are welcome:
Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
