**Abstract of the  
Talk**

Thinking schools and Learning Nation is to be the new paradigm. Education aims to mould minds of tomorrow. Educated person is one who possesses values, the proper mindset, knowledge, skills, a responsive member of the family, a useful person in the society, and a good citizen of a good country. The new economy is built on technology; particularly fast advancing technologies like info-communications, the new revolutions in the life sciences. Speed, flexibility and nimbleness in seizing market opportunities will be critical. Marrying of entrepreneurial talents and technological expertise is crucial. In the thinking schools and learning nation, concepts are based on desired outcomes of education such as values, skills, attributes to be accrued at different stages of education. The webinar is aimed to discuss all these challenging issues, which will be critical to achieve desired outcome for the learners.

**All are welcome:**

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
