Abstract of the Talk

*In 21<sup>st</sup> century, technological disruption is a necessary evil! Industries are facing significant disruption and uncertainty, in a continuously rapidly disruptive changing ecosystem. Learning, unlearning and relearning; skilling, upskilling and reskilling is becoming the order of the day. To gracefully face the challenges of the rapidly changing disruptive ecosystem, keeping ourselves relevant and useful is the billion dollar question. This session is aimed to provide the much needed necessary knowledge required to embrace this highly uncertain future environment, while navigating their jobs and career choices. Our expert, Mr. Anand Sampath will provide a CEO's and a Risk Expert's perspective to this topic based on global research done by various entities and discuss its all possible dimensions.*

**All are welcome:**

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
