Link and Fee**

Registration Link: <http://bvicam.ac.in/webinars/>

No registration fee. It is absolutely free for the members of IEEE, CSI, IETE, ISTE, ISCA, IITP and Bharati Vidyapeeth, with pre-registration

**Abstract of the
Talk**

Ethics have always played an important role in the context of human behaviour since ages. Instead, it can be better said that ethics of a society or congregation of humans govern how they carry out activities. Thus simply said, ethics govern the definition of right and wrong. In the present world, the growth of technology and modern life has not only impacted the nature of activities, but also how we perform them. Hence, the present generation of academia, researchers and industrialists alike should be aware of the basic ethical principles to be adhered to in their domain of work. In the present times, research is also marred by numerous unethical practices like plagiarism, data fabrication etc. Hence, it has become all the more important to understand and adhere to the ethical norms in research. This webinar is aimed to discuss the ethical issues and plagiarism in research in detail. The webinar aims to discuss them and sensitize the researchers regarding do's and don't's of Publication Ethics and Plagiarism.

All are welcome:

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
