**Abstract of the
Talk**

The Start-ups are the future of the country as well as the world. They need to be nurtured like new-born babies. Start-ups have limited resources, but are likely to face more challenges and risks. Sometimes they may have to compete with the big corporates that are well established and have been running multiple programs supporting Organisational Resilience like Risk Management, Crisis Management, Business Continuity Management, Information/ Cybersecurity Management, etc., are extremely vital. Our Award-winning speaker, Daman, a Certified International and Corporate Trainer and Resilience Expert will give his formula of the 'basic minimum' for the Start-ups that will allow them to lock horns with the biggies! In turn, of course, they will become more Resilient.

All are welcome:

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
