Registration Link: <http://bvicam.ac.in/webinars/>
No registration fee. It is absolutely free for the members of IEEE, CSI, IETE, ISTE, ISCA, IITP and Bharati Vidyapeeth, with pre-registration

Abstract of the Talk

AI is a necessary evil! But it's an animal that can be tamed for the benefit of the humanity – to build a Resilient World. The Corporate World is embracing the AI faster than any other technology (arguably). Our expert, Prof. Daman Dev Sood, will discuss the Risks associated with this adoption. The talk will be based on his own global research as well as inputs from articles by Forbes, LinkedIn, World Economic Forum, University of the West of England, etc. The first step in Risk Management is to 'admit' it. The session will help in doing. Let us not be 'pigeons' – the basic principle of Risk Management. Log in if you are curious to hear this story from Prof. Daman

All are welcome:

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
