Bharati Vidyapee New Delhi	wiembers Aminity Group, inter Society Relations, Advancing Technology
CSI Delhi Chapter IEEE Delhi Section	
Invite you for a Free <b>Webinar</b> on <b>11-06-2022</b> , <b>the Saturday,</b> at <b>06:00 p.m.</b> as per the details given hereunder:-	
Speaker	Mr. Pankaj K Dwivedi Head of BD & Agronomy, nurture.farm
Date and Time Schedule	11-June-2022, the Saturday, from 06:00 p.m. to 07:30 p.m.
Title of the Talk	The Pollution Mess: A Technological Solution
Venue and Contact Details	<b>CISCO WebEx Meeting</b> Platform CISCO WebEx Event ID and Password shall be sent on E-Mail to the registered participants, at-least one day in advance. Please check your Spam and other folders also for our emails and mark it as SAFE / NOT SPAM.
Programme Schedule	05:30 p.m. to 06:00 p.m. – Login, online Networking and Tea (at Home) 06:00 p.m. to 07:00 p.m. – Technical Talk 07:00 p.m. to 07:30 p.m. – Q & A Session followed by Certification
Registration Link and Fee	Registration Link: <u>http://bvicam.ac.in/webinars/</u> No registration fee. It is absolutely free for the members of IEEE, CSI, IETE, ISTE, ISCA, IITP and Bharati Vidyapeeth, with pre-registration
Abstract of the Talk	Air pollution mess (enhanced in winters) in Delhi and NCR is well known – due to the continued practice of stubble burning on over 6 million acres of farms in the regions around Delhi and NCR, impacting public health, farm health and our environment. The main barrier to India's stubble burning issue is not the lack of alternatives available but rather understanding the problem at the root level and choosing, mobilizing and implementing solutions that fit the purpose. In 2021, nurture.farm decided to deal with the issue of stubble burning by successfully deploying a bio-decomposer-based spraying solution on the farms, at a significant scale of over 4,00,000 acres, and through a deep science and tech based approach. Come, be part of the interactive discussion about what it takes to build and scale such solutions, and the kind of impact it has done to date - on the farm, on the environment, and in these local farming communities. This webinar is aimed to discuss its all round perspective.
All are welcome: Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. Advance registration is mandatory for participation. Participants will also get Participation Certificate.
