

Bharati Vidyapeeth
New Delhi

IEEE Delhi Section with Computational Intelligence Society, Computer Society, Communication Society, Consultants Network Affinity Group, Life Members Affinity Group, Inter Society Relations, Industry Relations, TEMS, SMC, SIGHT Standing Committees of IEEE Delhi Section and Region-10 with following associations

CSI Delhi
Chapter

Computer Society Chapter
IEEE Delhi Section

IITP New Delhi

IETE New Delhi

IEEE Delhi Section

Invite you for a Free **Webinar** on **31-08-2024, the Saturday**, at **06:00 p.m.** as per the details given hereunder:-

Speaker

Mr. Ganesh Sahai

Global CTO, Nagarro

Date and Time Schedule

31-August-2024, the Saturday, from 06:00 p.m. to 07:30 p.m.

Title of the Talk

Trending Technologies of 2024

Venue and Contact Details

CISCO WebEx Meeting Platform

CISCO WebEx Event ID and Password shall be sent on E-Mail to the registered participants, at-least one day in advance. Please check your Spam and other folders also for our emails and mark it as SAFE / NOT SPAM.

Programme Schedule

05:30 p.m. to 06:00 p.m. – Login, online Networking and Tea (at Home)

06:00 p.m. to 07:00 p.m. – Technical Talk

07:00 p.m. to 07:30 p.m. – Q & A Session followed by Certification

Registration Link and Fee

Registration Link: <http://bvicam.ac.in/webinars/>

No registration fee. It is absolutely free for the members of IEEE, CSI, IETE, ISTE, ISCA, IITP and Bharati Vidyapeeth, with pre-registration

Abstract of the Talk

We are almost half way through 2024 and there has been lots of movement happening in the technology world. From hardware to software, we are seeing interesting trends. Chips industry is undergoing a tremendous shift, with companies like Nvidia getting into \$3T mark. New chip architectures are being experimented upon and getting funded which may disrupt the existing players. These chips are further boosting the growth of AI and as the hype settles the usecases which add business value are getting traction. AI assisted research and automation is in full swing. We can see the impact in drug discovery, automotive (self driving vehicles), healthcare (esp. automated surgeries, AI assisted diagnosis), financial analysis (AI assisted portfolio analysis), teaching (AI assisted tutors), customer support (digital humans), manufacturing (digital twins) etc. This is paving way for a new era in robotics and humanoids. With every passing day, it looks we are getting closer to a ChatGPT like moment in humanoids. The Webinar will delve into some of these interesting technological trends and how this technologically changing ecosystem will impact our way of living and the skills needed for future jobs.

All are welcome:

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
